

BOWMEN OF THE DEANS HEALTH & SAFETY NOTICE

SAFE MOVEMENT OF BOSSES

FOR YOUR OWN HEALTH AND SAFETY BOSSES SHOULD ONLY BE LIFTED AND MOVED USING TWO PEOPLE. ATTEMPTING TO MOVE A BOSS ON YOUR OWN CAN CAUSE INJURY AND DAMAGE THE BOSSES.

WE HAVE SOME VERY CLEVER ENGINEERS THAT CAN REPAIR THE BOSSES ALTHOUGH THIS IS COSTLY - BUT UNFORTUNATELY THEY CANNOT REPAIR BAD BACKS OR BROKEN LIMBS (UNLESS YOU WANT A WOODEN LEG)

IF YOU DECIDE TO MOVE BOSSES ON YOUR OWN THEN BOWMEN OF THE DEANS WILL ACCEPT NO LIABILITY FOR INJURIES AND YOU WILL BE HELD RESPONSIBLE FOR DAMAGES TO BE MADE GOOD.

For Safe Transit of Bosses

TWO PEOPLE LIFT BOSSES OUT / INTO THE CONTAINER ONTO THE WHEELS PROVIDED

ONE PERSON CAN WHEEL THE BOSS ACROSS THE FIELD (ONE BOSS AT A TIME)

TWO PEOPLE SHOULD OFF LOAD AND ERECT THE BOSS LIFTING IT INTO PLACE AND POSITIONING IT.

TWO PEOPLE SHOULD MOVE THE BOSS FORWARD IF NEW DISTANCE REQUIRED

ONE PERSON CAN LAY THE BOSS FLAT ON THE GROUND READY FOR TRANSPORT IF SAFE TO DO SO.

AT ALL TIMES CONSIDER OTHERS AND THOSE AROUND YOU WHEN MOVING BOSSES
